Lutheran schools and early childhood services, as part of the mission of the Lutheran church, are communities of worship and service, sharing and living the good news of Jesus Christ.

Lutheran schools and early childhood services are communities of hope, nurtured by the promises of God’s word, love and forgiveness which empower staff and students to embrace the future with confidence.
There are five key areas of work or Vocational practices that describe what we do in Lutheran education. We all are engaged in each of these Vocational practices to varying degrees, at different times, as we live out our service and vocation in Lutheran education. The Vocational practices have been developed using the AITSL Principal Standards.

Excellence in learning
Lutheran schools and early childhood services value excellence and creativity in teaching and learning for all community members. A culture of challenge and support nurtures enthusiastic, independent learners, committed to lifelong learning. Excellence in teaching and learning is focused on improving student outcomes which includes spiritual, intellectual, physical, emotional, cultural and social dimensions. All learners should have access to quality learning experiences that ensure they develop their God-given abilities so that they may enrich the world. High expectations are established through reflective practice, collaborative planning, monitoring, providing feedback and reporting on the effectiveness of learning. The learning environment promotes active engagement, risk taking, motivation and a strong learner voice.

Ongoing improvement and innovation
Improvement in Lutheran schools and early childhood services is guided by its values, vision and mission. Excellence is pursued through a culture of reflection, collaboration, innovation and creativity. Evidence is gathered to develop and implement improvement plans and policies for the continuous development of teaching and learning, the institution and its facilities. Ongoing professional learning encourages all members of the community to achieve high standards and develop their service and leadership capacity.

Strengthening Lutheran identity
Lutheran schools and early childhood services, as agencies of the Lutheran Church of Australia, share a recognisable Lutheran identity in which the gospel of Jesus Christ informs all learning and teaching, all human relationships, and all activities in the school. The rituals, symbols, visual displays and practices convey its Christ-centred identity. The school/early childhood service community is regularly involved in Christian worship which includes daily devotions. Christian Studies is an essential and distinctive part of the formal curriculum. Lutheran schools and early childhood services deliberately and intentionally share and live the good news of Jesus Christ with students, families, staff and the broader community. Opportunities for faith nurture are actively promoted and maintained.

Community building
Lutheran schools and early childhood services value the richness and diversity of the wider community and other education sectors. Positive and strategic partnerships are developed and maintained with students, families, local Christian communities, the broader community and Lutheran education. The relationships are built upon support, collaboration, trust and reconciliation. The Lutheran school/early childhood service community lives out the gospel and is active in service of others. The multicultural and multi-faith nature of Lutheran education and Australian society fosters understandings of diverse cultures. Lutheran education promotes the understanding of, and respect for, Aboriginal and Torres Strait Islander people.

Leading effective organisation and management
In Lutheran schools and early childhood services, roles, responsibilities and procedures are clearly articulated so that staff can participate in its smooth and efficient operation. Data and knowledge management methods and technologies are used to ensure that resources (human, physical, technological and financial) are efficiently organised and managed to provide an effective, safe and caring, growth-oriented learning and working environment. Strategic planning ensures the ongoing improvement and sustainability of the school/early childhood service. Best practice is built upon effective collaboration between the governing body, staff, students, families, church and others.

4. Identifies significant new opportunities
   Identifies helpful relationships among complex data from unrelated areas that lead to new and significant opportunities for Lutheran education or highlight paradoxes or patterns that block or hinder strategic aspirations. Presents these observations in a compelling way that leads to a shift in the strategic direction and action of the school/early childhood service or wider area of responsibility.

Thinking strategically

Involves taking a ‘big picture’ view and seeing situations strategically and coherently within their broader context. It involves looking for patterns, trends or connections across different situations, timeframes and experiences to comprehend current circumstances, see things in perspective, capitalise on future opportunities and mitigate potential risks.

Making it happen

Involves proactively doing what needs to be done to meet commitments and deliver on promises to provide the best possible Lutheran education for students and their families. This occurs with a focus on continual improvement. It is expressed through intentional creative action, striving for improvement, introducing innovations and consistently working to deliver excellent education outcomes.

our culture
Lutheran education workplace culture

Lutheran education workplace culture describes the atmosphere or climate of the work environment. It is the perception of how it feels to work in Lutheran education, within a particular location, office, school or team. It is the environment we are aspiring to create – a culture of fostering educational excellence that is immersed in a Christ-centred approach to education – where all we do and say is based on our desire to see every person thrive and flourish in their work and life. Service in response to God’s love is at the heart of all that we do.

The following graphic summarises the workplace culture or environment we are aspiring to create in Lutheran education. excellence in outcomes

Imagine the elements of the framework working together in synergy to create excellence. What are the observable outcomes of Lutheran education? The excellence in outcomes will be developed by Lutheran schools and early childhood services as they discuss and apply Growing Deep in their context.

The following ideas may provide stimulus for discussions.

Vocational practices

- Excellence in learning
  Staff and students are engaged, self-directed learners with purpose. High expectations and opportunity to achieve and extend beyond perceived personal potential is provided through a differentiated and individualised approach to learning.

- Ongoing improvement and innovation
  A culture of risk taking and creativity is nurtured and fostered.

- Strengthening Lutheran identity
  Rituals, symbols, practices and visual displays convey the Christ-centred identity of the school/early childhood services.

- Community building
  A culture of collaboration, reflection and action empowers the community.

- Leading effective organisation and management
  Resources, policies and processes enable staff and students to thrive.
